Short Description

Schaller 463 4-string Bass Guitar Bridge. The roller bridge saddles reliably minimize string breakage while maintaining intonation and tuning stability.

Description

Schaller 463 4-string Bass Guitar Bridge. Schaller 4-string bass bridge, with roller saddles, Chrome, Adjustable spacing 2-3/32" to 2-1/2". The baseplate is 3-1/8" x 2-1/4". Each saddle is adjustable for height and intonation. Heavy-duty precision parts ensure extremely long sustain.

- 3-dimensional adjustment of string height, intonation and string spacing (with roller bridge saddles).
- The individual string intonation is set by adjusting the string saddles.
- Heavy and precise construction for extra long sustain.
- The guitar or bass strings lie on low-friction roller saddles which prevent the strings from breaking.
- This means the string spacing can be adjusted flexibly.
- All bridges are supplied with a 3mm baseplate and screws as standard.
- Support: Reels
- Surface: Gold
- Measurements l x w x h (mm): 80x57x15 (19)
- Weight g/item: 267

- Item number 12130500
- Recommended Price: 106,02 EUR
