Description

The Graph Tech PN-8100-00 is a set of ghost loaded pickups for Telecaster Style Electric Guitars. They are a drop in replacement set to make for an easy install.

- Improved tuning stability
- Impregnated with PTFE
- Increased harmonic content

These pickup saddles are designed to work with any of GraphTech's ghost preamp kits.

Specifications:

Fits American Telecasters with bridges that have six intonation screws. They have wide, 2-3/16 inch E-E string spacing. This is a set of six saddles, with centered intonation screws.

Please Note: Will not fit Mexican Classic Reissue, USA vintage or American Series models.
