Price: £9.95

Short Description

A set of 6 guitar individual machine heads.

Description

These machine heads have small buttons and are configured for 6 In-line headstocks. Can be used as a direct replacement for broken or missing machines or in the refurbishing of a guitar or indeed hand built guitars from individual makers.. Each machine head is plated. Steel rollers make them suitable for all guitars with steel and bronze strings. Picture is for illustration only. Shade and design vary slightly between manufacturers.
