Description

Gibson Flying V Style Guitar Plans - Full plans for constructing & building an Electric Guitar based on the legendary Gibson Flying V design. Detailed and informative, ideal for anyone wanting to build their own Flying V from start to finish. **PLEASE NOTE:** Image of the guitar and parts is for information only. Only the drawings and plans are supplied. You can however buy pretty much anything you want from our store so building one won't be an issue.

Our plans feature a full size drawing of the instrument as well as a list of suggested materials and some construction details. They are all tried and tested instruments, designed and drawn by an experienced luthier. They are folded for shipping / delivery.

- Fully dimensioned
- Full scale
- Beautifully drawn using CAD software
- Flying V is a trademark of Gibson Guitars, who we do not have any affiliation

with.
